

Logan Mansfield

Point of Sale System Analyst

I'm building a stack of Data Engineer & Data Scientist skills. I'm looking for a team where I can learn new skills and prove mastery of those I've acquired. Current Goal: Find a role where Power BI development is a primary responsibility, and I can practice skills relevant to a Data Engineer. Ask me what I'm working on!

Experience

2024 - Current

IT Point of Sale Analyst *ZooTampa at Lowry Park*

Maintain the backend for our Galaxy 7 ticketing system. Maintain point-of-sale hardware including inventory, troubleshooting.

Generally responsible for all things point of sale related, including vendor relationships and supporting general IT helpdesk.

|

2023 – 2024

Guest Engagement Coordinator *ZooTampa at Lowry Park*

Automated reports, wrote educational programs, trained Guest Engagement Guides.

|

2022 – 2023

Guest Engagement Guide *ZooTampa at Lowry Park*

Presented educational content about various species around the park. Led guided tours behind-the-scenes.

2019 – 2022

Data Analyst *EXCEL ESPORTS*

Presented key strategy decisions based on data collected and analyzed from a variety of sources including a video game API (Riot API), a private database, flat csv files, and other public resources.

2018 – 2019

Research Assistant *Towson University*

Collected and recorded data on various ecology related topics, including tree cores, soil and water sampling and processing, aquatic microbiology, and many others.
